

# Can I install photovoltaic panels at home for free

Are solar panels free?

The Department of Energy is aware of claims of offers for free solar panels or that solar companies must provide solar panels for free if requested. However, the federal government does not offer any programs for free home solar panel installations nor does the government require companies to grant solar panels for free to customers.

Can I install solar panels myself?

You can install solar panels yourself, but doing it alone involves risks. Going solar has significant financial benefits: it reduces your monthly electricity costs and can even increase the value of your home. Incentives can lower your overall cost drastically, but solar is still a big investment.

Do low-income solar programs offer free solar panels?

Low-income solar programs don't typically provide completely free solar panels, but they can greatly reduce installation costs. Most of the programs provide rebates or grants to cover the majority of rooftop solar installation costs for qualified applicants, but there may still be some costs or payments required.

Does the Department of energy offer free solar panels?

The Department of Energy and the Solar Energy Technologies Office have got you covered! The Department of Energy is aware of claims of offers for free solar panels or that solar companies must provide solar panels for free if requested.

Are "free" solar panels a good idea?

The concept of "free" or "no-cost" solar panels really is too good to be true. "Free" solar panels are essentially rented from solar companies. While you will reap the benefits of cheaper electricity bills through solar power, you do not own the panels; the solar company does. Once your lease agreement is up, the panels will be removed.

Do you own solar panels with a "no cost solar" agreement?

You will not own the solar panels with one of these "no cost solar" agreements. In other words, solar leases are essentially like renting solar panels. The solar company handles all of the installation and maintenance for a specified term, which is usually around 20 to 25 years.
