

# Can the locker be opened

How do you open a locker lock?

Now you can open the lock by pulling the shackle. If, after following the procedure, the locker lock still won't open, don't panic. Start over from the beginning with three spins to the right and "clear" the lock. If, after re-entering the right combination, the locker resists to open, it means that it could be jammed.

Why can't I open a locker door?

If the lock is built into the locker, you'll now be able to open the door. If the lock doesn't open, try the following: Rotate the dial a couple more numbers to the right (clockwise). The gates in these cheap locks are not always aligned correctly. Clear the lock and try entering the numbers again.

Why can't I open my school locker?

Most jams come from books, packages, and other things pressing against the lock. Knocking that item free is often enough to open up the average school locker. If your locker has a key lock, clean it before attempting to force it open. If you still can't open it yourself, call for help to retrieve what you left inside of the locker.

How do I reopen a locker?

Find an available locker: Use the operation knob to open the locker door and put your belongings away. Scramble: After locking your restable combination lock scramble the (4) dials to secure your belonging and keep the lock closed. Reopening the lock: Use the same unique (4) dial combination to reopen the lock and retrieve your belongings.

How do you open a school locker?

See Step 1 to begin learning how to open 99% of all standard school lockers. (Note: some locks may open differently) Spin the dial at least three times to the right (clockwise), all the way around. This clears the lock of any previous numbers. If at any point in putting in your combination you mess up, do this again to start over.

How do I know if the lock is open?

Identify if the lock is open: If locked, turn the four (4) dials to the factory preset combination or the known combination that unlocks the lock. Open lock: Turn the operation knob clockwise 180°; to the open position. The indicator in the window will turn from red to green.
