

Photovoltaic panel cleaning training

What is solar photovoltaic panel cleaning technology?

The Solar Photovoltaic panel cleaning technology can considerably increase the efficiency of electricity generated and also increase the durability of Solar panels.

What is Isca solar panel cleaning safety training?

Global Safety Standards ISCA provide the most up-to-date global standards for safe solar panel cleaning. Our safety training program is available in over 20 countries and languages. Become a premium member to GET 50% OFF solar panel cleaning safety awareness training courses and access the ISCA expert knowledge database.

How to clean the photovoltaic panel?

The cleaning is performed by three combined actions: the rotation of the brush, the high pressure water and two squeegees. This ensures a very high cleaning efficiency in only one cleaning cycle. Our technology guarantees no damage on the photovoltaic panel. Indeed, the brush material is very soft and has been chosen to avoid any risk of scratch.

Can I report solar panel cleaning accidents anonymously?

ISCA members can report solar panel cleaning accidents anonymously and feedback crucial information regarding industry trends to us. One of the main benefits of enrolling with ISCA are our online solar panel cleaning safety awareness and training courses. Premium members receive 50% off the cost of the course.

What is the solar Instructor Training Network?

The Solar Instructor Training Network developed a robust local training network across the United States. During its term, the program partnered with more than 400 community colleges, labor training centers, and technical high schools.

What is solar ready vets?

Solar Ready Vets is a separate training program available specifically to military personnel on select military bases who are in the process of retiring and transitioning to civilian life.
