Who is Arctech solar?

Arctech Solar has a strong track record, having supplied over 50GW of tracking and racking systems to nearly 1,500 photovoltaic (PV) plants in 40 countries by the end of 2022. With a diversified workforce of over 1,300 employees, the company aims to provide innovative and efficient solutions for maximizing solar energy generation.

What types of PV mounting systems are available?

Their product portfolio includes tracking PV mounting systems, adjustable PV mounting systems, ground-fixed PV mounting systems, building-attached PV mounting systems, photovoltaic building structures, flexible PV mounting systems, PV intelligent cleaning solutions, and building support and suspension systems.

Can versol mount a photovoltaic power station?

Versol's V-Basic mounting system can be applied to photovoltaic power station in different terrain and environment. The product range includes a wide range of models and styles, and is highly adaptable.

Where is versol solar based?

Founded in 2009, Versol solar is headquartered in Hangzhou, China, and spans 60 acres. The company operates three major production bases, encompassing nearly 50,000 square meters of production area.
